Advanced Detox Support With Humic And Fulvic Provides A Comprehensive Approach Supporting “Whole Body” Detoxification.

Detoxification is the body’s way of removing toxic substances. It is a very complex system which initiates at the cellular level.

Many detoxification products focus on a single system or organ, leaving the others congested or full of toxins, and ultimately at some level of dysfunction. This faulty and one-sided approach can cause toxic backup in the body, creating more stress, and even causing those horrible detoxification side effects!

Are you experiencing any of these common symptoms of toxin buildup?

- Inflammation
- Brain fog
- Hair loss
- Fatigue
- Brittle toenails
- Bad breath
- Nausea
- Weight gain

Advanced Detox Support provides ingredients that assist the cellular membrane functions, lymphatic system, gastro-intestinal system, liver, and the kidneys leading to a balanced approach at whole body detoxification.

Benefits of Detoxification

- Reduction or elimination of inflammation
- Balanced body pH levels
- Mood and energy enhancement
- Stress relief
- Improved heart health
- Better immune system
- Lowered risk of disease

CELLULAR FUNCTION AND DETOX

Mother Earth Labs' Advanced Detox Support is loaded with organic, non-gmo ingredients which specifically target cellular membrane function, as well as the lymphatic system, gastrointestinal system, liver, and the kidneys to maximize their detoxification functions including...

- **Milk Thistle Extract (80% Silymarin)** – Used for liver disorders, gallbladder support and detoxification. Milk thistle is promoted as a dietary supplement for hepatitis, cirrhosis, jaundice, diabetes, indigestion, and other conditions.
- **N-Acetyl L-Cysteine (NAC)** – A chemical precursor to glutathione, one of the body's most important antioxidants. It helps protect your cells against free radicals.
- **Glutathione (reduced)(as Setria®)** – The body's natural, primary defense against free radicals, and a natural detoxifier that helps to eliminate harmful toxins in the body and supports liver health.
- **Burdock Root Extract** – Induces lymphatic drainage and detoxification, strengthens the lymphatic system. Burdock root is a natural diuretic, naturally and easily helping your body eliminate excess water by increasing urine output.
- **Dandelion Root Extract** – An excellent source of potassium, this mineral and electrolyte stimulates the heartbeat. Potassium may help the kidney filter toxins more effectively and improve blood flow. The polysaccharides in dandelion are known to reduce stress on the liver and support its ability to produce bile.
- **Astragalus Extract 10:1** – Protects and supports the immune system, prevents colds and upper respiratory infections, lowers blood pressure, treats diabetes, and safeguards the liver. Contains antibacterial and anti-inflammatory properties.
- **Betaine HCl** – Contains hydrochloric acid and often relieves the symptoms of heartburn and improves digestion in people who have hypochlorhydria (low stomach acid).
- **Choline bitartrate** – Needed to properly transport fat from the liver to cells throughout the body. Choline cleanses the liver by being partially responsible for keeping the liver clear from fat build-up.
- **Activated Bamboo Charcoal Powder** – Benefits major organs by helping the body flush out the toxins and chemicals that cause internal damage.
